

Welding Goggles

Welding Goggles (with Elastic Headband); These Welding Goggles have two IR5 Lens are made up with Polycarbonate material and an Elastic Headband for user comfort flip-up front features allows you to easily chip or grind with clean, adjustable head strap to fit all sizes. A Soft PVC frame - cozy to wear, ABS lens holder, features a compact design, Lightweight and durable, soft plastic frame conforms to face. They are used for Welding Purpose.

Specifications	
Description	Welding Goggles with Elastic Headband
Frame	Non-allergic soft co-polymer for pressure free long duration use
Headband	Soft Elasticated with locking clips
Lens	Material: Polycarbonate (Shade : 5) Coating: Scratch-resistant coating and antifog coating on both sides. Optical class: Class-I as per as per EN166.
Impact Protection	Tested and certified to impact protection as per EN166 to Level B confirming against medium energy impact of 120 Metres/sec [432 km/hour].
Standards	EN166 B CE Lens

Features:

- Fitted with IR5 lens, providing eye protection during gas welding operations.
- Extremely comfortable for all-day wear and protect against typical hazards like flying particles, splashing material, dust and other General hazards.
- Provides protection to eyes, brow and the area around while performing passive welding.
- Good field of vision having panoramic lens shape allowing 180degree uninterrupted lateral vision.
- Integrated indirect ventilation allowing air movement directly across the lens while protecting against hazards.
- The weight of the goggle is 75 grams approximately Ideal in field of use of;
 - i) Large dust particles
 - ii) Ideal for gas welding, cutting, brazing, passive welding etc.
 - iii) High speed flying solid materials
- Provide Protection for 99.99% UV protection.

Welding Goggles (Flip-on type); These are Flip-on Type Welding Goggles have two Eye Safety Welding Glasses with 5 Din Flip up lens and an Elastic Headband for user comfort. A soft plastic frame conforms to face and an ABS lens holder features a compact design and durable. They are used for Welding Purpose. They are used for gas welding / cutting / brazing operations.

Specifications	
Description	Welding Goggles (Flip-on type)
Frame	PVC
Headband	Adjustable Elastic Strap type
Lens	Shade 5 DIN lens.
Impact Protection	Impact-resistant ABS eyecups.
Standards	EN166 B CE Lens

Features;

- Fitted with 5 Din Flip up lens providing eye protection during as welding / cutting / brazing operations
- Extremely comfortable for wear and protect against typical hazards like splashing material and other General hazards.
- Provides protection to eyes, brow and the area around while performing passive welding, cutting / brazing operations.
- Protection: Prevent 99.9 UV and 98% Infrared Ray.
- CLI approved as per IS 5983:1980.
